RAVAS sales person	
Company name	
Contact person	
Lift truck (brand + model)	
Truck serial number	
Truck capacity (= RAVAS scale capacity)	kg
Expected shipping date of truck to RAVAS*	
Specific truck instructions / remarks	
Email contact person operations**	

* If the expected shipping date is not met, the delivery time cannot be guaranteed.

** In case deviations are found or technical questions arise from RAVAS.

Position of the indicator

- ☐ right (default; seen from the steering-arm side)
- ☐ left
- ☐ middle

Due to slight variations in truck dimensions, the exact measurements are not known in advance by either RAVAS or the customer. RAVAS will measure each truck upon arrival to confirm whether the modified dimensions still fit the designated pallet type.

Unless otherwise specified, a standard Euro pallet with a 5 mm tolerance will be assumed. The customer will be informed beforehand if any of the following maximum allowable dimensions are exceeded after modification:

- Minimum inside width between forks (≥ 155 mm):
- Maximum outside width over forks (≤ 590 mm):
- Maximum fork height (≤ 95 mm):

Delivery/Transport

The customer hereby confirms that:

- on delivery the truck is in good condition and complies with laws and regulations
- the truck will be delivered with a full battery and a charger
- the truck can be unloaded by the driver himself, so without local facilities
- they are aware of the mechanical modification as described in the product documentation
- they themselves have checked that the truck is suitable for the intended use after modification
- they agree that the work may be performed by RAVAS or by third parties designated by RAVAS
- no restrictions regarding GPS, geofencing, or countries apply, or alternatively, the required approvals and access codes are provided
